Adding UMKa3XX trackers to the GLONASSsoft hosting platform

GLONASSsoft technical support:
portal request: http://help.glonasssoft.ru,
e-mail: support@glonasssoft.ru
Phone number: 8-800-700-82-21

Enter these parameters to register on GLONASSsoft:
1. Identifier – IMEI 1111222233334444 (EXAMPLE)
2. Server IP address: 176.9.36.169
3. Port: 15050 (for all UMKa3XX devices)

Adding UMKa3XX trackers to the GLONASSsoft hosting platform

We recommend that you use Google Chrome browser for the best https://hosting.glonasssoft.ru/ experience.

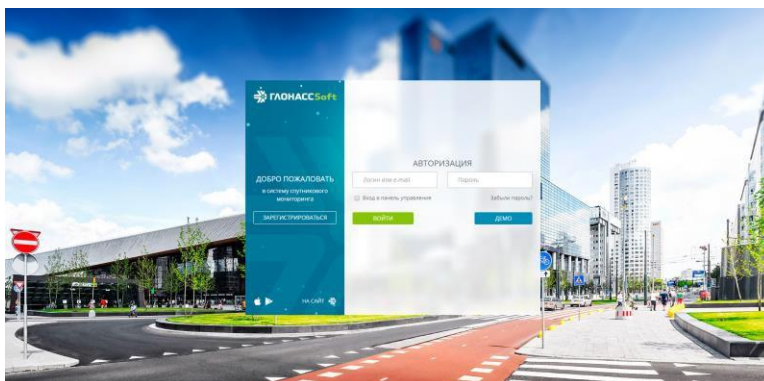

Figure 1: Accessing the portal

Log into your account (Fig. 1), go to Control bar (Fig. 2):

Figure 2: Selecting Control bar

In the window opened, select "Objects" in the upper toolbar and click ➕ "Add vehicle". Be sure to specify: "Object name", "Device type" (for all UMKa3XX devices), «IMEI» and "Object model" (Fig. 3).

Figure 3: Adding new object

In order to fill in the "Vehicle models' reference book, click ➕ and fill in the opened form (Fig. 4):

Figure 4: Adding "Vehicle models" form

Add the "Ignition" sensor (if the ignition sensor gas been physically connected to the IN0 input). (Sensors/Add ➕) (Fig. 5). If necessary, add the sensors required.

Figure 5: Adding sensors

Now, when the ignition is started up, in the monitoring window you can see this icon. 🔑

After you have finished entering all the required data, click "Save". The tracker with all the sensors connected will be registered on the GLONASSsoft hosting portal.

In order to check the connection with the tracker, find it in the list of objects. Double-click to open the following window:

Figure 6: Checking tracker connection

In the right part of the window, there is information about the last connection and online status.
